Professional Summary

Detail-oriented Mechanical Engineer with strong knowledge of manufacturing processes, CAD design, thermodynamics, and quality control. Experienced in designing mechanical components, conducting performance analysis, and optimizing production efficiency.

Education

Bachelor of Engineering (Mechanical Engineering)
XYZ Institute of Technology, Pune
2022–2026 | CGPA: 8.4/10

Technical Skills

AutoCAD, SolidWorks, CATIA, ANSYS, MATLAB, Manufacturing Processes, Thermodynamics, Fluid Mechanics, Quality Control, CNC Programming, MS Excel

Projects

Design and Analysis of a Multi-Speed Gearbox

Designed gearbox components using SolidWorks and performed stress analysis using ANSYS.

Solar-Powered Water Pump System

Developed a sustainable irrigation solution and improved energy efficiency.

Internship Experience

Mechanical Engineering Intern, ABC Manufacturing Pvt. Ltd. (May 2025 – July 2025)

- Assisted in production planning and quality inspection.
- Conducted machine maintenance analysis.
- Reduced downtime through preventive maintenance recommendations.

Certifications

- SolidWorks Associate Certification
- AutoCAD Professional Certification
- Six Sigma Yellow Belt

Achievements

- Finalist in National Design Competition
- Led a team of 5 students in SAE BAJA project
