Mumbai, India | +91 73831 94643 | rishigogia30@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

AI & Data Science undergraduate with hands-on experience building full-stack web and mobile applications using **React.js**, **JavaScript**, **HTML**, **CSS**, and **Node.js**. Skilled in developing responsive, cross-browser-compatible UIs, implementing UX best practices, and collaborating with engineers in agile environments. Passionate about creating seamless user experiences and staying current with modern frontend technologies.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design, Cross-Browser Compatibility
UI/UX:	User Experience (UX) Principles, Component Design, Performance Optimization, Mobile-First Design
Backend & DB:	Node.js, Express.js, MongoDB, Firebase, REST APIs, JWT Authentication
Languages:	Python, Java, C
Tools:	Git, GitHub, Jupyter Notebook, AWS (Cloud Foundations & Developer certified)
AI/ML:	Machine Learning, NLP, LLMs (GPT-3.5/4), scikit-learn, NumPy, Pandas

PROJECTS

AI Career Copilot — Full-Stack React/Node.js AI Platform

React.js · Node.js · MongoDB · GPT-3.5 · NLP | Jan 2025 – Apr 2025

- Built a **full-stack React.js frontend** with dynamic, component-based UI for resume analysis, job matching, and interview prep workflows — applying **responsive design** and smooth user flows.
- Designed and implemented an interactive **skill-gap analysis dashboard** with real-time feedback, leveraging React state management and RESTful API integration.
- Ensured **cross-browser compatibility** and mobile responsiveness across the application using CSS Flexbox/Grid and media queries.
- Collaborated on end-to-end system design spanning **React.js frontend**, Node.js/Express.js backend, and MongoDB, following UI/UX best practices throughout.

Interview Preparation Platform — AI-Powered React Web App

React.js · Node.js · Express.js · MongoDB · JWT | Sep 2024 – Dec 2024

- Developed a **responsive, multi-page React.js web application** with dynamic routing, supporting coding, system design, and behavioral interview practice with real-time adaptive scoring UI.
- Built a **performance analytics dashboard** using React components and Chart.js, enabling users to visualize progress trends and identify weak areas through intuitive data visualizations.
- Implemented **JWT-based authentication** with role-based access control, ensuring secure and smooth user experience across the platform.
- Applied **responsive design principles** and optimized frontend performance, achieving consistent UX across devices and browsers.

Fixify — On-Demand Home Services Platform

Flutter · Dart · Firebase · Android Studio | Mar 2024 – Aug 2024

- Developed a cross-platform mobile application (Android/iOS) connecting customers with verified local service professionals across categories including plumbing, electrical, carpentry, and appliance repair.
- Designed separate customer and service-provider modules with authentication, booking management, real-time order tracking, and profile management using Firebase.
- Implemented Firebase real-time database for live booking updates and secure user authentication with role-based access control.
- Architected a modular, scalable service category framework to support rapid addition of new service verticals without structural changes.

EDUCATION

B.E. — Artificial Intelligence & Data Science

Vivekanand Education Society Institute of Technology (VESIT), Mumbai | CGPA: 8.23/10 (up to Sem 5) | Expected May 2027

CERTIFICATIONS

- AWS Academy Graduate — Cloud Developing & Cloud Foundations
- Fundamentals of Deep Learning — NVIDIA

- Complete Data Science, Machine Learning, Deep Learning & NLP Bootcamp — Udemy
- Generative AI & ChatGPT — Udemy
- Git & GitHub Bootcamp — Udemy

HACKATHONS & CO-CURRICULAR

- **Syrus '25** — VESIT Inter-College Hackathon: Developed an AI-powered web solution under 24-hour time constraints, handling frontend UI implementation end-to-end.
- **Invictus '26** — VESIT Technical Fest: Competed in software engineering challenges focused on system design and implementation.
